

I am opposed to NAB's petition 04-160. I enjoy XM radio and appreciate that I can receive local traffic and weather information from my XM provider. I am happy to pay to be an XM listener they offer the quality and variety that I as an consumer want and expect for my listening enjoyment. XM is more concerned with my wants as a listener than the National Association of Brodcasters who are only concerned with their own pockets. It is not up to the NAB to tell you what the american public want to hear. I believe it is up to people like me who show our true needs as consumers by subscribing to services like XM so we can find the service and quality that is not available on regular radio. I urge you to reject the NAB's petition 04-160 and support my right as an american citizen to receive the type of programming that I want and deserve. Suppot XM radio and give the public real choices.

Sincerely,

Dawn Riddlebarger
